Student's Name:_____

Form of Consent

Notes for student:
It is important that you spend 10 to 15 minutes of your first session with a new client getting the clients
details. Students should record all details of each client session on this form. As the client opens up their

details. Students should record all details of each client session on this form. As the client opens up their story, the student should ensure they have recorded enough of the clients story to have it to refer to if reviewing the clients case in the future. Securing details of the clients story will also help you to have a better picture of the clients medical history.

It is vital that your client signs this form giving their permission for the session on the first day and that the date of the session is recorded alongside this. Please also ensure to record the clients date of birth. Retain the record of your session/s to have available for Helen O'Flinn to review with you if required.

(To be completed by all persons attending for treatment prior to commencement of Bio Energy Therapy)
